

Managing Player Clearances

Player clearances is a mechanism whereby clubs gain approval from their governing body to transfer a player from one club to another. Throughout the process, the affected clubs and the association are notified by email as to the actions that are required at any stage.

Note: **Permits** have a similar process to that described below for Clearances, except the application is between one club and the association. A player must be on a club's player list before a Permit can be requested.

Clearance Process

Club (destination club) applies
for a player clearance

The player's current club (also referred to as the 'from' or 'ex' club)
must grant or deny the request

The relevant association must grant or deny
the clearance request

Once clearance is granted the
player is automatically transferred
to the destination club

(this means that the player then appears on the active player list of the destination club)

- If a club denies a clearance, the association can override and grant the clearance.
- If more information is requested by any party, the request essentially goes back to the prior status. For example, if a club has 'granted' a clearance, then the association requests more information, that club needs to provide the information, and grant the clearance again.
- All changes to the clearance application will result in an "audit" record that is accessible by the association.
- Personal details of a player being cleared from another club will be obscured from the applying club until that clearance is granted.
