Managing Player Clearances

Player clearances is a mechanism whereby clubs gain approval from their governing body to transfer a player from one club to another. Throughout the process, the affected clubs and the association are notified by email as to the actions that are required at any stage.

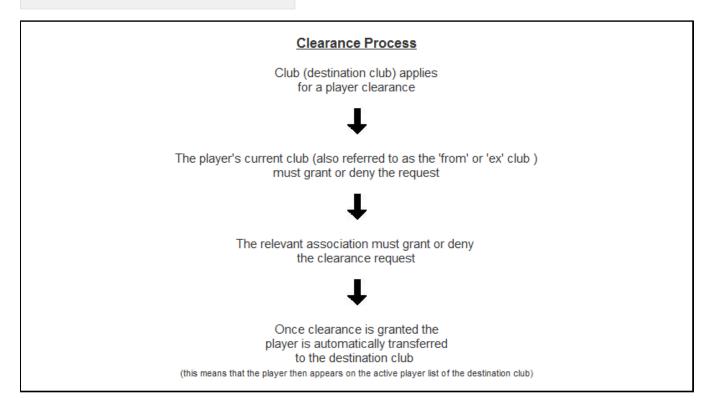

Note: **Permits** have a similar process to that described below for Clearances, except the application is between one club and the association. A player must be on a club's player list before a Permit can be requested.

Notes on the process

- When a clearance application changes status an email is sent out to both clubs and the association notifying them of the change. Emails are sent to:
 - Any club administrative user that either creates the request, or responds to it
 - Any club administrative user that is subscribed to the Clearance/Permit request Notification
 - Any association administrative user that is subscribed to the Clearance/Permit request Notification
- More information about Notifications
- If a club denies a clearance, the association can override and grant the clearance.
- If more information is requested by any party, the request essentially goes back to the prior status. For example, if a club has 'granted' a clearance, then the association requests more information, that club needs to provide the information, and grant the clearance again.
- All changes to the clearance application will result in an "audit" record that is accessible by the association.
- · Personal details of a player being cleared from another club will be obscured from the applying club until that clearance is granted.

Clearance Status Definitions
