Highlighted Items:

(1) To view the side menu which includes Matches, Add a club or league, Manage favourites, Preferences, Notifications & About Play-Cricket Live.

Note

The matches are displayed in date order, oldest to newest, from top to bottom.

For a club, matches will be separated into rounds and displayed chronologically.

- To view all matches for a specific round (i.e. not just the matches this club took part in), tap the 'All >' button next to the name of the round.

For a competition, all matches will show from the current round. To change round, select a new round from the round selector at the top of the screen

Note

To refresh the match listing area simply swipe down on the list at the top.

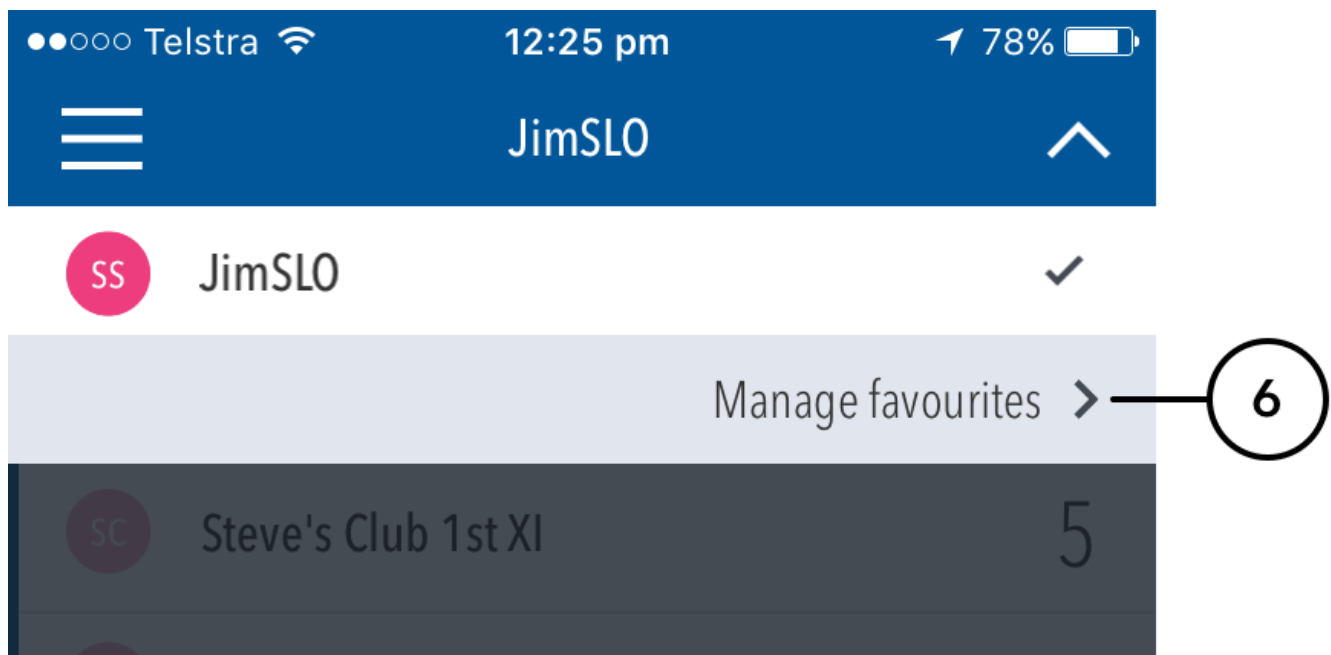

The match list can only be refreshed every 90 seconds to show updated scorers.

(2) Completed match - Displays the winners score displays in **bold**. You can access a detailed scorecard by tapping on the match.

(3) In progress match - Displays the scores in progress as highlighted by the 'In Progress' flag. You can access a detailed scorecard by tapping on the match.

(4) Upcoming match - For any upcoming match, you can tap on the date to add the match to the calendar app on your device. You can set your default calendar from the Preferences screen (available from the menu).

(5) To change the current favourite, tap anywhere in the title bar of the app (where the name of the favourite is displayed) and select the favourite you'd like to display on the Dashboard.

(6) If you'd like to change the settings of any of your favourites, tap 'Manage Favourites' and then tap on the favourite you'd like to edit.
