Highlighted Features:

- (1)** To set the number of overs per batting pair, tap on **(-)** to reduce and **(+)** to increase the value. The batting team is divided into pairs and each pair bats for this duration, regardless of whether they are dismissed or not.
- (2)** To set starting score per innings, tap and enter value. Each team commences its innings with this total, to which runs are added as scored.
- (3)** To set number of runs subtracted from batting total at fall of wicket, tap on **(-)** to reduce and **(+)** to increase value.
- (4)** To set the number of times per batter that the batting team gets penalized for a wicket, tap on **(-)** to reduce and **(+)** to increase the value. If set to 'All', the batting team will get penalized every time a batter is dismissed as per **(3)**.
- (5)** To select whether or not to change ends at the fall of each wicket, use the toggle switch for 'change strike after a wicket'.
- (6)** To set number of runs added to the total of the bowling team at fall of a wicket, tap on **(-)** to reduce and **(+)** to increase the value.
