In the top right-hand corner, the current organisation that you are affiliated with is selected. This affects the information that is shown in some of the subsequent screens - like information relating to matches.

You can change the current organisation you wish to view information for by **clicking on the organisation name** in any of the main screens.

You will then be able to select another organisation to which you are linked.

The list of organisations indicates for which organisations you are currently registered as a player, and also for which you are registered as an umpire.

The system defaults the current organisation to the organisation you last had as the current organisation when you logged out.
