

Discounts (Products)

Organisations are able to create and add their own discounts to their products. Adding a discount(s) to a product will allow those eligible to pay a reduced amount when registering.

The discount is taken off the product base fee (and not the additional fees at a higher level – association, state, national).

To create or edit a discount, select 'Registration' > select 'Discount Rules' > 'Add New Discount Rule'.

The screenshot shows the 'PLAY FOOTBALL ADMIN' interface for Carlton Rovers FC. The navigation menu includes ORGANISATION, PEOPLE, REGISTRATION, TEAMS, COMPETITIONS, WEBSITE, and REPORTS. The 'REGISTRATION' menu is expanded, showing options like Registration Dashboard, Registration Management, De-reg Request, Registration Accounts, Product Management, Signup Form Management, Discount Rules (highlighted), Disclaimers, Invoices, Product Purchases, Payment Gateway Report, Coupons, and Voucher Management. The 'Discount Rule List' page features a table with columns for NAME, TYPE, DISCOUNT, and EDIT. The table lists several discount rules, including 'Club student disc of \$33', 'Sibling', 'canteen', '50% Remaining', 'Early Bird', and 'sports voucher'. Each row has an edit icon in the EDIT column.

NAME	TYPE	DISCOUNT	EDIT
Club student disc of \$33	Student	\$33	
Sibling	Sibling	\$40	
canteen	General	\$5	
50% Remaining	General	\$200	
Early Bird	Early Bird	\$40	
sports voucher	General	\$165	

Discount Rule Types:

- **Early Bird** – encourage registrants to register early and get a discount on their registration. Add a 'cut-off' date to this type of discount to add against a product.

- **General** – add a generic discount.
- **Role** - add a discount based on the role of the person within the system. This includes, players, referees, coach, volunteer and committee.
- **Student** - add a discount for students. This appears as a tickbox in the form.
- **Sibling** - This discount type allows for discounts when a parent is registering multiple siblings. Discounts can be added for the 2nd, 3rd and subsequent siblings. To allow a registrant to receive the discount(s) when registering multiple children; the family relationship must be linked correctly in Play Football. Each child must be linked to their parent. As part of the signup process, when the parent is registering another child within the registration period, the system will automatically add the discount when checking out. There are a number of ways to link family members within the system:
 - claim their children's accounts via the Member Signup process. The registrant will be prompted to link accounts if the email address they are using is the same as their children.
 - in the participant portal, the parent can log in and link their children to their account.
 - Linking parents to children - can be performed by a system admin via the Person Edit > Family Relationships > Add Family Members.
