

Re-grade Team

Re-grading a team occurs during a current season and allows a team to be up-/down-graded to a different division once matches have been played. Where required, the migration of squad lists, match data and ladder points is facilitated.

Typically this occurs in competitions that allow re-grading to occur if a team is winning or losing a large percentage of their matches.

Re-Grade Team

Warning: If votes have been entered for players in these teams, regrading will not work. Please remove votes before proceeding.

Select team to replace...

Team Name in destination grade

Comets 1

Options

Copy played matches and ladder points into destination grade

Move player matches and statistics from source to destination grade

Replace migrated team with BYE in the source grade

Submit

1. Start by selecting the **Source Grade**, **Team to Regrade** and **Destination Grade**.
2. Complete the re-grade team options as per the table below.
3. Click **Submit** and **OK** to save your changes.

 It is crucial to review target team & associated grade thoroughly before clicking **Submit** as it is more complicated to reverse the action & requires manual manipulation

4. It is recommended that you review the newly re-graded team, including:

- Checking the fixtures of both source & destination grade.
- Checking the ladder display of both source & destination grade.
- Checking the Team settings in Grade manager page.
- Rerunning the draw creator wizard.

Regrade options	Descriptions
Create as a new team in destination grade	• Adds the team to the destination grade. • Should be used if no bye or no team available for swapping grades in the upcoming matches. • Need to restart draw creator wizard to reflect the team change in fixture. • Seeding for teams will be auto adjusted in both destination & source grade.
Replace future byes (if any) in destination grade with migrated team	• Slots migrated team in upcoming bye matches in destination grade. • May not need to re-run draw creator. • Perfect if a bye is available for the upcoming matches. • Seeding for teams will be auto adjusted in source grade.
Replace an existing team in destination grade	• This will remove a specified team from any future matches in the fixture of the Destination Grade and replace it with the Migrated Team. • May not need to re-run draw creator. • Perfect in case moving out team is available for the upcoming matches. • Seeding for teams will be auto adjusted in source grade.

Copy played matches & ladder points into destination grade	• A copy of matches played by the migrated team will be created in the fixture of the Destination Grade (shown in red in Season Fixture). These are used for ladder calculations. • This helps to recalculate ladder points for destination grade including match played by migrated team. • There might be a missing or surplus of matches played in case the timing of two grades involved is different ie. team may play more or less matches than those in destination grade. • This will at the same time hide the team from source grade's ladder display. • Seeding for teams will be auto adjusted in both destination & source grade.
Replace migrated team with Bye in the source grade	The fixture in the source grade will be updated with the Migrated team being replaced with a BYE in future matches. Any matches that would result in 'BYE v BYE' will be deleted.
