Person Availability Summary

The person availability function:

- Assists an association in determining which umpires are available for upcoming matches. At any time an association administrator can view a consolidated list of umpire availability for each date on which matches are played, assisting with their umpire allocation, while umpires can dynamically update their availability.
- · Assists a club to know when its players are available to play during a season while players can dynamically update their availability.
 - 1. On the Match Official Availability screen, select the filter criteria as per the table below.
 - 2. Optionally show contact details by checking the Show contact details checkbox.
 - 3. Click the Refresh List button to view the list of available players.
