Ladder Adjustments

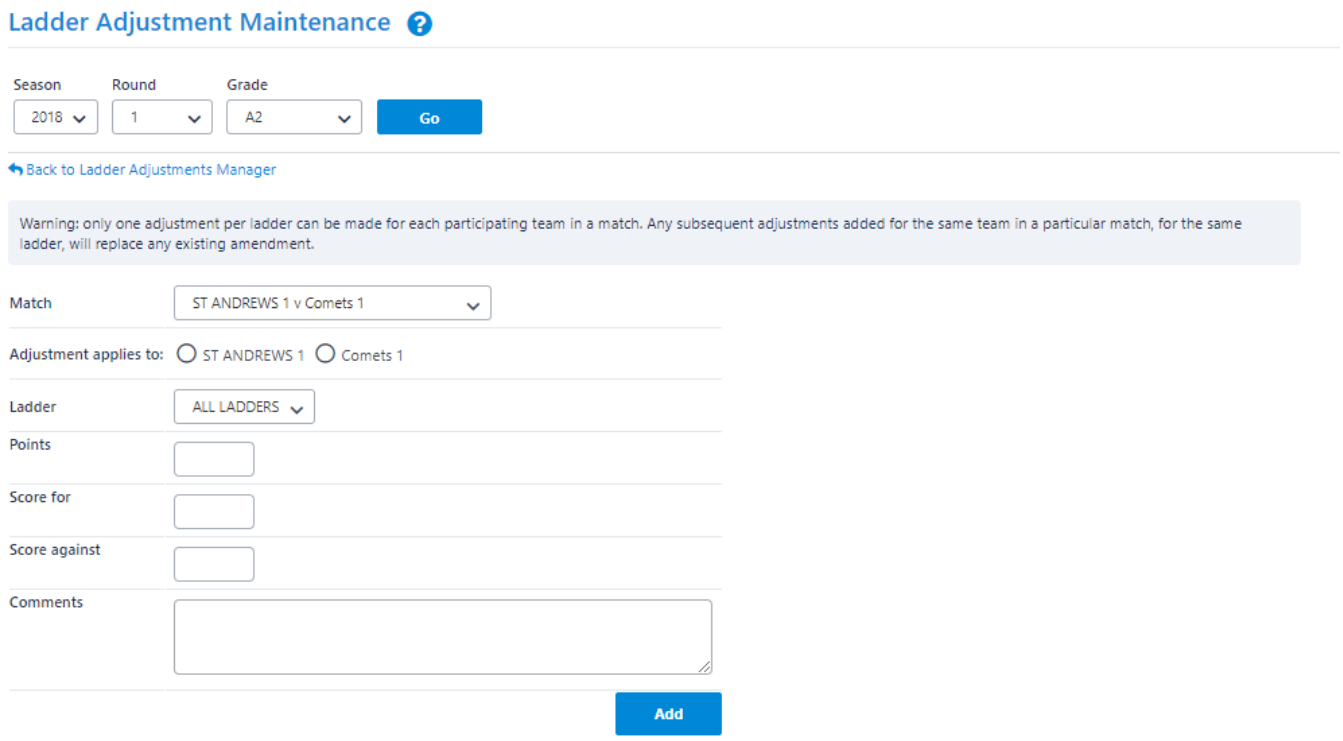

Ladder adjustments are used to adjust a ladder where it is automatically calculated. A number of parameters can be adjusted, including points and total scores.
Adjustments can be viewed from public ladder pages.

- A ladder adjustment must be applied to one of the competing teams in a match.
- Only one adjustment can be applied to each team within a match.

View Ladder Adjustments

Add a Ladder Adjustment

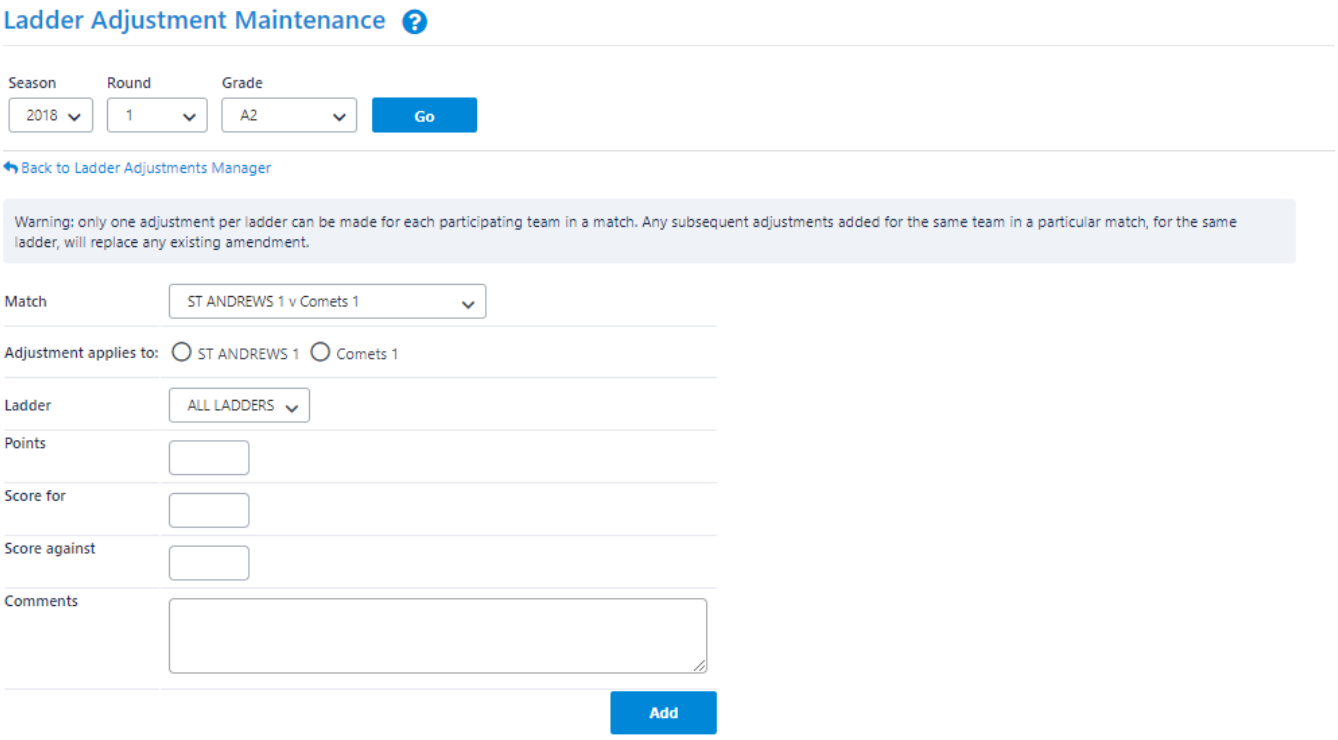

1. From the Ladder Adjustments Manager screen, select the **Add New Adjustment** link to add a new adjustment.
2. Select the Season, Round and Grade and click **Go** .
3. Complete the details as listed below, then Click **Add**.
4. If an adjustment has already been entered for your selected Season, Round and Grade combination, the following screen will be shown, and you will need to **Confirm Overwrite of adjustment** to either overwrite the adjustment or select **Back to Ladder Adjustments Manager** to cancel the change.

Ladder	Select the ladder to adjust, or ALL LADDERS.

Points	Enter a positive number to increase the team's total points within the ladder, or a negative number to reduce the points.
Scores for/against	Adjusts the scores **for** or **against** within the ladder.
Comment	A comment must be entered for each adjustment, to explain why the adjustment was made.

Edit a Ladder Adjustment

1. From the Ladder Adjustments Manager screen, select the **Edit** link for the adjustment you wish to edit.
2. Amend the adjustment, then Click **Update**.
