

# Ladder Adjustments

Ladder adjustments are used to adjust a ladder where it is automatically calculated. A number of parameters can be adjusted, including points and total scores. Adjustments can be viewed from public ladder pages.

- A ladder adjustment must be applied to one of the competing teams in a match.
- Only one adjustment can be applied to each team within a match.

Comments

Add

1. From the Ladder Adjustments Manager screen, select the **Add New Adjustment** link to add a new adjustment.
2. Select the Season, Round and Grade and click **Go** .
3. Complete the details as listed below, then Click **Add**.
4. If an adjustment has already been entered for your selected Season, Round and Grade combination, the following screen will be shown, and you will need to **Confirm Overwrite of adjustment** to either overwrite the adjustment or select **Back to Ladder Adjustments Manager** to cancel the change.

Ladder	Select the ladder to adjust, or ALL LADDERS.
--------	--

<b>Points</b>	Enter a positive number to increase the team's total points within the ladder, or a negative number to reduce the points.
<b>Scores for/against</b>	Adjusts the scores <b>for</b> or <b>against</b> within the ladder.
<b>Comment</b>	A comment must be entered for each adjustment, to explain why the adjustment was made.

## Edit a Ladder Adjustment
