Linked Accounts and Participant Details

- If a user has linked accounts or family relationships established in ResultsVault, a list of linked account records would be shown after sign-in, with options to identify who is completing the form and who is being registered.
- On the first step of Registration- the Participant Details section would then get automatically populated with the "Who is being registered" record details, and (if activated) the Parent/Guardian section would show details of "Who is completing this form" (only if they have an existing parent family relationship in ResultsVault).

There are multiple participant records associated with this account.
