

Enterprise Dashboard and Reports

This feature is available to National and State level Governing bodies.

The **Enterprise Dashboard** presents a time based view of key system metrics such as:

- Number of active participants.
- Number of matches played and players playing in competitions managed by the current organisation or its child organisations.
- Number of active child organisations.
- Number of logins to the system from users/participants from the organisation or its child organisations.

Show the previous 12 months ending: 31/01/2017  GO

Active Participants Players in matches **Matches** Organisations Logins

Matches
Number of matches played in the previous 12 months for competitions managed by the current organisation or child organisations.

Enterprise Reports give National/ State governing bodies access to Customized reporting to get fit-for-purpose reports- for extracting the data the organisation needs.

Please contact [support](#) for addition of extra dynamic report lists to cater to your organisation's reporting requirements.

Data for these reports is refreshed once per day at midnight Australian Eastern Standard Time.

To generate new report, click on a report from the list.

The Report Status list will show up.

-  means that the report has been generated and is ready for download. Click under "File Name" to download the report.
-  means that the report creation is in progress. Due to the large size of these files, certain reports can take several minutes to generate. Enterprise reports are executed asynchronously, so you can move on to another task and come back to the page later to download the generated report.
-  means that the report creation is pending.

Report Status List

Status	Report Description	File Name (Download)	Create Time	Finish Time	Report Source
	Grade Details and Org ID	 GradeDetails_2017.xlsx	7/02/2017 1:21:17 PM	7/02/2017 1:22:01 PM	Enterprise Reports
