Back

Pairs cricket

Batting

1

Overs per pair

4

2

Starting runs per innings

200

3

Runs lost per wicket

5

4

Penalised wickets per player

All

5

Change strike after a wicket

Bowling / Fielding

6

Runs gained per wicket

0

Highlighted Features:

- (1) To set the number of overs per batting pair, tap on **(-)** to reduce and **(+)** to increase the value. The batting team is divided into pairs and each pair bats for this duration, regardless of whether they are dismissed or not.
- (2) To set starting score per innings, tap and enter value. Each team commences its innings with this total, to which runs are added as scored.
- (3) To set number of runs subtracted from batting total at fall of wicket, tap on **(-)** to reduce and **(+)** to increase value.
- (4) To set the number of times per batter that the batting team gets penalized for a wicket, tap on **(-)** to reduce and **(+)** to increase the value. If set to 'All', the batting team will get penalized every time a batter is dismissed as per (3).
- (5) To select whether or not to change ends at the fall of each wicket, use the toggle switch for 'change strike after a wicket'.
- (6) To set number of runs added to the total of the bowling team at fall of a wicket, tap on **(-)** to reduce and **(+)** to increase the value.

Note

In order to score a match in the pairs format, ensure to set the match format as Pairs in [Play-Cricket](#). Once set, the pairs match format cannot be overridden in the Scorer app.
